

UNITED STATES GOVERNMENT

memorandum

DATE: 13 April 1979

REPLY TO
ATTN OF: Chairman, Computer Security
Subcommittee

SUBJECT: Proposed Modifications in DCID 1/11

TO: Members, Computer Security Subcommittee

Serial: T4/130/79

1. Pursuant to your general wishes as expressed at the 22 March meeting, I requested guidance from the Chairman of the Security Committee and from the full Security Committee at the 11 April meeting of the Security Committee.

2. It was the opinion of both the Chairman of the Security Committee and the full committee that the Computer Security Subcommittee should pursue modification of DCID 1/11 to cover computers used in communicating classified intelligence information. This was done with full recognition of the fact that computer security of computers used in communications had been a defacto concern of the former COMSEC board.

3. I would therefore like to have the position of your respective agencies as outlined in my memorandum (T4/084/79, dated 7 March), by the ~~26 April meeting.~~

24 May meeting.

cc: Executive Secretary
Security Committee
